Jenjang Pendidikan

Universitas Jember - Indonesia

Aug 2021 - Jan 2026

Bachelor of Compute Science, 3.73/4.00

- Fresh Graduate (GPA 3.73). I developed my understanding and skills in informatics, particularly web development, machine learning, and computer vision. My thesis focused on a comparative analysis of deep learning algorithms in the task of classifying oral diseases. This research emphasized image dataset processing, data augmentation applications, and model performance evaluation using various evaluation metrics to determine the best-performing architecture.
- I was actively involved in student organizations for three years, where I was responsible for creating a sporting and high-quality ecosystem for all informatics students. I served as Head of the Human Resources Development Division for a year.

SMA Negeri 4 Jember - Jember, Indonesia

Jul 2018 - May 2021

Senior High School, Natural Sciences, 87.71/10.00

- An active and dedicated student with strong organizational and leadership skills. Served as President of the Karawitan Club and Secretary of the Scout Extracurricular, effectively managing team dynamics and administrative tasks. Additionally, demonstrated excellent public speaking and community engagement as a Volunteer for the PIK-R program, conducting educational socialization sessions for elementary school students.

Pengalaman organisasi

Himpunan Mahasiswa Informatika Universitas Jember - Jember

Jan 2024 - Dec 2024
